

MEF-3

30 July 1973

STAT
MEMORANDUM FOR:

General Allen

SUBJECT: Possible Chairman of R&D Council of
IRAC

1. Attached is a letter from Dr. Lukasik, ARPA, and suggestion of DCI/IC on the possibility of Lukasik being proposed as Chairman of the IRAC R&D Council.

2. On the face of it, naming Lukasik as Chairman of the R&D Council has some distinct advantages. For one thing, his being outside the Intelligence Community should contribute to the objectivity of that Council's recommendations. Further, Lukasik's qualifications are unlikely to be challenged by anyone in the Community.

3. I recommend that CCG and PEG add their comments hereon.

Major General, USA
